the good events that happened with my expectations were almost the same.

I actually didn't have any expactation but it was nice to meet you.

i thought that it would be kinda awkward to meet at first but they were all so sincere with us.

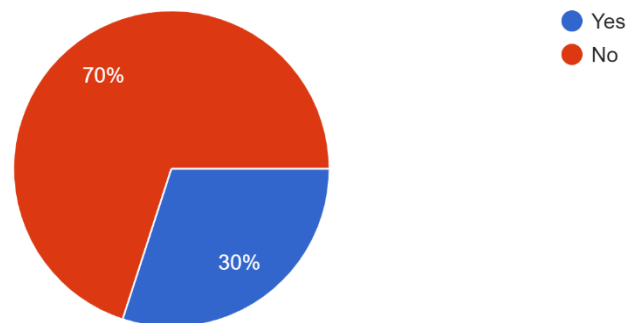

I just hoped to have a good time together.

I was thinking that I would meet friendly people and that our cultures would be similar and that's what I thought.

I don't know why but I expected you to be more serious and cold, but when I met you I understood that you're all actually the sweetest people!

Did you have any difficulty understanding us or communicating with us in English?

### What did you like most about our traditions, culture, and foods?

I liked your food. Especially the chocolates you brought with yourselves!

Italian dances were very entertaining and their food culture was overdeveloped. Family structures also seemed very warm and affectionate to me.
